Noise Testing, you will be required to position your vehicles in front of your garage so noise testing can begin at 9.40. Please remember the pit lane is in use by the session before.

Circuit entry, for all sessions you will enter the circuit from your garage. Please consider that the session before will be using the pitlane.

Exiting the circuit. For all sessions. After taking the chequered flag do a complete lap and exit the circuit into the pit lane, Parc Ferme is the far end of the pit lane. **All cars to Parc Ferme after all sessions.**

On the slowing down lap, please keep a high pace up to clear the circuit as soon as possible.

Qualifying, the fastest lap in qualifying will determine the grid for race one. Race two grid will be the result of race one, after judicial proceedings are concluded.

All entered drivers must complete a minimum of 3 laps, in the vehicle to be raced, in qualifying.

Grid procedure, the pit lane will open and cars will proceed to the grid. 3 minutes after the pit lane opens the pit lane will close, cars still in the pit lane after this time, will be a pit lane starter. The green flag lap will commence 7 minutes after the pit lane opens, any car not in its grid position at this time will remain at the rear of the grid or be a pit lane starter. Teams are allowed **one** team member per car on the grid, **only** to help/assist them to be in the correct grid position. Leave the grid as soon as your car is in position.

Team members going onto the grid, please be at the gate (under the gantry lights) 5 minutes before the pit lane is due to open.

Approximately 30 minutes before the program time, a message on the official WhatsApp and timing screens will give the approximate time the pit lane will open for the races. Be ready 20 minutes before the program time as we can run 20 minutes early.

Please note, once all cars are in position on the grid, a one-minute signal will be given for the start of the rolling lap, even if this is before the seven minutes noted above.

Race Starts. All starts are a rolling start, the safety car will leave the grid and continue at a moderate pace until it exits Aintree onto Wellington Straight, where it will begin to slow down. all cars should start to form up behind the safety car ready for the start. Entering Brooklands, the grid should be set and ready for the start. The safety car will exit into the pitlane. Cars should be in two rows, as per the grid sheet, following the car in front.

Positions should be maintained until the start lights go out. Failure to maintain position can result in a false start penalty being issued.

Aborted Start, if the lights stay on, this will indicate an aborted start. Drivers will go round again following the same procedure as before but with no safety car, pole position will control the Grid. Be aware that if an aborted start happens, the race time starts when the pole position car crosses the line at the aborted start.

Safety Car will be used for the races only. When the yellow flags and S/C boards are displayed, all drivers will reduce their speed. The lead car will effectively become the safety car, until they meet the safety car, and all cars will line up behind the lead car. Safety car will enter the circuit from the pitlane and will exit into the pitlane. Once the safety car extinguishes its lights, the lead driver will resume the role of safety car once again. There is to be no overtaking or overlapping of another car until you have passed the control/finish line. Safety car regulations are page 303 of the Blue Book.

When the safety car flags and boards go out, drivers are required to slow down significantly and immediately, not when they meet the safety car.

The pitlane will remain open during safety car periods. No refuelling can take place during safety car periods.

Mandatory Pit Stop. It is your responsibility to know the pit stop regulations. The Britcar staff are allowed to answer your questions on pit stop regulations. They are also Judges of Fact for pit stops.

When exiting the pitlane please take extra care when rejoining the circuit. Do not cross the white blend line on exit.

The pit window will open 20 minutes after the race start and close 35 minutes after the race start.
